INTRODUCTION

The Auto-Clamping Mix-Clear Plexi Car Mount with Adjustable Locking Air Vent is the ultimate hands-free solution for modern drivers. Designed with a sleek, transparent plexiglass finish, this mount seamlessly blends style and functionality.

The innovative auto-clamping mechanism ensures a secure and effortless grip on your device, while the adjustable locking air vent attachment provides a stable and customizable fit for any car interior. Perfect for navigation, calls, or entertainment, this car mount offers 360-degree rotation, shock-absorbing silicone pads, and a compact, lightweight design to enhance your driving experience. Stay safe, connected, and in control with this must-have accessory.

SPECS & FEATURES

- Auto-Clamping Mechanism
- Secure Suction Cup
- 360 Rotation
- Adjustable Locking Air Vent
- Transparent Plexiglass Design
- Universal Compatibility

PRODUCT OVERVIEW

HOW TO USE

Step-by-Step Instructions:

Attach the Mount to the Air Vent:

Select a sturdy air vent in your car (horizontal or vertical slats work best). Open the locking mechanism on the mount and position it over the vent. Tighten the adjustable locking arm to secure the mount firmly to the vent. Ensure it's stable before proceeding.

Adjust the Position:

Use the swivel ball joint to rotate the mount to your desired angle (landscape or portrait). Adjust the extendable arm to bring the mount closer or further away for optimal viewing.

Place Your Phone in the Mount:

Press the quick-release button to open the clamps. Gently place your phone in the cradle. The auto-clamping mechanism will detect your phone and automatically close the clamps securely around it.

Set the Viewing Angle:

Tilt or rotate the mount using the 360-degree swivel feature to achieve your preferred viewing position.

Optional: Connect Accessories:

Plug in a charging cable or any audio accessories while your phone is

mounted for uninterrupted use.

Remove Your Phone:

Press the quick-release button to release the clamps. Gently lift your phone out of the mount.

CARE AND SAFETY

Regularly wipe the mount with a soft, damp cloth to remove dust, smudges, or fingerprints, especially on the clear plexiglass surface. Use a mild soap solution for stubborn dirt, but avoid harsh chemicals or abrasive cleaners that could damage the surface.

PACKAGE INCLUDES

- Clamp Width: 5-10cm
- Material: ABS, PV, Metal, Clear Plastic
