User Manual**INTRODUCTION**

Upgrade your driving experience with the 2-in-1 15W Wireless Charging Car Mount, a versatile solution for hands-free convenience and fast charging on the go. Featuring both a vent clip and a suction cup stand, this car mount offers multiple installation options to suit your vehicle's setup.

SPECS & FEATURES

- 15W Wireless Fast Charging
- Overcharge Protection
- Secure Grips protect your phone from falling out
- Automatic Clamping Mechanism
- 360 Rotating Mount

PRODUCT OVERVIEW**HOW TO USE****Unbox and Prepare**

Remove all components from the packaging and ensure you have the following:

Car mount with wireless charging cradle.

Vent clip attachment.

Suction cup stand.

USB-C charging cable

Choose Your Mounting Option**Option 1: Vent Clip Installation**

Attach the vent clip to the back of the car mount.

Open the clip by rotating or pressing the lock mechanism.

Insert the clip onto your car's air vent slats.

Tighten the clip by locking it into place to ensure stability

Option 2: Suction Cup Installation

Attach the suction cup stand to the back of the car mount.

Select a flat, smooth surface on your dashboard or windshield.

Clean the chosen surface to ensure a strong grip.

Remove the protective film from the suction cup.

Press the suction cup firmly against the surface and lock it by pressing or flipping the lever.

Connect the Charging Cable

Plug the included USB-C cable into the car mount.

Connect the other end to a compatible car charger or USB port (charger not included). Ensure the mount's LED light indicator turns on, signaling it is ready to charge.

Mounting Your Phone

Place your phone against the cradle.

The automatic clamping mechanism will activate and securely grip your phone.

Adjust the mount's arm or head for your preferred viewing angle.

Charging Your Phone

Ensure your phone is Qi-compatible and supports wireless charging.

With your phone in the cradle, wireless charging will automatically begin.

Check the LED charging indicator to confirm charging status.

Removing Your Phone

Press the release button (usually on the side or back of the cradle).

The arms will open, allowing you to safely remove your phone.

Switching Between Mounting Options

To switch from vent clip to suction cup (or vice versa), detach the current mount attachment and replace it with the other option.

Detaching the Mount**Vent Clip:**

Unlock and carefully remove the clip from the air vent.

Suction Cup:

Unlock the suction cup by flipping the lever. Pull on the small tab of the suction cup to lift it off the surface.

CARE AND SAFETY

Wipe the headphones with a damp cloth after use, especially if used during workouts. Store the headphones in a cool, dry place when not in use

PACKAGE INCLUDES
