Mount Arm

INTRODUCTION

Magnetic Car Mount is the last mount you'll need to purchase. The sleek black design ensures that it matches with every dashboard and car environment it is put into. It can bend in all different types of directions so you could place it and use it however you would like. The suction cup doesn't only suck the product to the dashboard or windshield but it also has a sticky like adhesive on it that way there is no possible chance it could fall or tip over in the middle of your journey.
