User Manual

INTRODUCTION

The 2-in-1 MagCharge Suction Cup Mount, designed for ultimate convenience and efficiency. Featuring 15W super-fast wireless charging for your MagSafe-compatible phone and a dedicated wireless charging dock for your AirPods, this mount keeps your essentials powered up and within reach. The strong suction cup base ensures a secure fit on your dashboard or windshield, while the sleek, minimalist design blends seamlessly with your car's interior. Perfect for hands-free navigation, calls, and staying charged on the go.

Specs & Features

- 15W Magnetic Wireless Mag Charging Mount
- Phone Charger
- Airpods Charger
- Suction Cup Mount
- Overcharge Protection
- 360 Rotating Mount

PRODUCT OVERVIEW

HOW TO USE

Assemble the Mount

Attach the suction cup base to the bottom of the MagCharge mount if it's not preassembled.

Ensure all parts are securely connected before proceeding.

Install the Mount

Choose a Location:

Select a flat, clean surface on your dashboard or windshield for installation. Avoid uneven or textured surfaces to ensure strong suction.

Select a flat, clean surface on your dashboard or windshield for installation. Avoid uneven or textured surfaces to ensure strong suction.

Clean the Surface:

Wipe the selected surface with a clean, dry cloth to remove dust or debris.

Secure the Mount:

Press the suction cup firmly onto the surface.

Lock it into place by flipping the suction lever down to activate a secure seal.

Connect the Power Source

Plug the included USB-C cable into the charging port on the mount.

Connect the other end to a car charger (Quick Charge 3.0 or higher recommended) or a compatible USB port in your vehicle.

Attach Your Devices

For Your Phone:

Align your MagSafe-compatible phone with the magnetic charging pad.

The strong magnets will snap your phone securely into place.

For Your AirPods:

Place your AirPods case on the dedicated wireless charging dock.

Ensure the case aligns properly with the charging surface to initiate charging.

Adjust the Viewing Angle:

Use the 360° adjustable mount head to set your desired viewing angle.

Switch between portrait and landscape modes as needed for navigation or media.

Begin Charging:

Charging will start automatically once your devices are properly mounted.

Confirm charging by checking the indicator lights on your phone and AirPods.

CARE AND SAFETY

Use a soft, dry cloth to wipe the mount and charging surface to keep it free from dust and fingerprints.

For the suction cup, periodically clean it with warm water to maintain its grip. Avoid using harsh chemicals or abrasive cleaners.

Keep the magnetic charging pad clean and free from metal debris (e.g., coins, keys) to maintain strong magnetic alignment.

PACKAGE INCLUDES

- Wireless Charging Mount Head
- Suction Cup Mount
- Type-C Charging Cable
